FOR IMMEDIATE RELEASE

**USSC GROUP OPENED A 300,000-SQUARE-FOOT, STATE OF THE ART
MANUFACTURING FACILITY IN EXTON, PA.**

Creating More Than 380 Manufacturing Jobs in Chester County

Exton, PA – USSC Group, (USSC), a manufacturer of custom seating and fire suppression products for the transit, military, and first responder markets celebrated the opening of their brand new 300,000-square-foot, state-of-the-art manufacturing facility in Exton, PA. on November 16.

Recently named #16 of Philly’s Top 100 Fastest Growing Companies, by the Philadelphia Inquirer. USSC continue their aggressive expansion by investing at least \$13.2 million into the project and have committed to the creation of at least 250 new manufacturing jobs and retain a further 130 jobs over the next three years, adding to their already substantial workforce of 900 people in Uwchlan Township, Chester County, PA.

“The USSC team is very excited to continue our growth in Chester County,” said Joe Mirabile, President & CEO of USSC Group. “We have the best and the brightest employees and use the latest technology, in our state of the art facility, to create world-class safety, survivability, and technology products for commercial and military transportation markets. “We are passionate about growing our talented team and creating manufacturing jobs in the great state of Pennsylvania. We are on the search for employees that can share our commitment to our culture; to be passionate about creating best in class products that save lives every single day.”

“The decision by USSC to continue to grow right here in Pennsylvania is a great win for our commonwealth,” Governor Wolf said. “Not only does this mean more jobs for people seeking work in manufacturing, but it also demonstrates that for manufacturing companies both in and outside of the state, Pennsylvania is the place to be to grow and thrive. I applaud USSC for their commitment to the commonwealth and our workers.”

“USSC is one of our most innovative manufacturers and job creators here in Chester County,” said Michael Grigalonis, chief operating officer of CCEDC. “They are also a terrific community partner getting engaged in many of our workforce and youth targeted programs. CCEDC was honored to play a role in facilitating USSC’s expansion here in Chester County.”
